SUPPLIES ARRIVE

As a consequence of it all about 8,000 men of the national guard are to be mobilized here this week. that point there can be no doubt. The first evidence was the opening of the quartermaster's headquarters and the unloading of carload after carload of supplies. The next evidence was the coming of a major surgeon of the medical corps with assistants and the medical corps with assistant building commencement of a hospital building which, when completed, will care for

THREE REGIMENTS ON WAY But if other evidence was lacking it was supplied yesterday by the arrival of a train loaded with big motor trucks, thirty-three of them, and fif-ty men in charge of them. Three regiments of national guardsmen are on the way, and others are entraining. There will be all of 8,000 guardsmen officers and others attached to the service.

MEANS MUCH FINANCIALLY

Financially, this means much to Deming. Only 5,000 men encamped at Fort Bliss meant much to El Paso a busy city of 75,000. How much more 8,000 men means to Deming, a little city of 5,000, is hard to estimate. But it means an outlay by the guardsmen and Uncle Sam at least \$625,000,00 a month.

Mr. Pollard is recognized as one of the state's most successful lawyers and business men of sound judgment, who knows values and has the power home," the Graphic has secured the of discrimination.

After studying for several weeks, the actual conditions on the coast, he says without hesitation that the Mimbres Valley has better opportunities right now than are to be found in California. He had plenty of opporunity to exchange Mimbres Valley land for coast real estate, but withont exception, turned every proposi-tion down. He believes that dairying, entile, and hogs, poultry and general farming will make this a home country, much to be desired.

And when it comes to climate and pure water, the Doming country is far and away the most desirable.

Let any man in this valley who don't agree with Mr. Pollard, speak now, or forever hold his peace.
